Order: I'm providing links that show you the correct order to read the books. They are not in order here!

ADDITIONAL BOOKS

Mattel released more books (like the pet books), but I didn't download them because it was too much already! But I'm happy to report that you CAN access them from the same website I did. I'll show you how to do that (and download the EPUB files if you want those).

HOW TO ACCESS THE BOOKS YOURSELF

1. Go to libgen.rs

This is what you should see. Make sure that "Fiction" is selected underneath the search bar.

2. Type in "ever after high".

All the books should come up. If you don't see the title of the book you're looking for, try searching the actual title or one of the authors (Shannon Hale or Suzanne Selfors).

Note: Fairy's Got Talent and Fairy Tale Ending by Suzanne Selfors both come up under the name Ever After High. They look like this:

Make sure to read the Series name to know exactly what book you're getting!

3. Click on the name of the book you want, under "Title". It will take you to this page:

Now, PAY ATTENTION. Go to where it says "Download" and click on "[Libgen.rs]" ONLY. Nothing else. Do not torrent. That will get you in trouble. Do not click any other link than the one I've circled here. It is the only one I use, and the only one that I have personally ensured will not get you into pirating trouble or give you any viruses.

4. Click "Get".

You will then wait until your computer has downloaded the document. It will appear as an EPUB.

MOST COMPUTERS/WEB BROWSERS CANNOT OPEN EPUBS!

So how will you be able to read it, you may ask? Stay tuned! There are 2 ways to do it.

HOW TO OPEN EPUB FILES

Easy Way

The easiest way to read your book is to turn it into a PDF first! I used this website to change all the EAH books into PDFs. It's free, simple to use, and very safe. Link here: <https://www.pdf2go.com/epub-to-pdf>

The area with instructions has also been underlined. It automatically downloads for you! Just save to your computer and start reading!

Harder Way

If you truly want to read it as an e-book, here's how to do it. These instructions only work for Chromium-based web browsers like Google Chrome or the NEW Microsoft Edge, so if you use Firefox, Opera, Safari, or something else, I'm sorry to say you'll have to either look it up or do it the easy way.

1. Search Google for "chrome extensions"

It will take you to this site.

2. Search "epub reader" scroll down until you find this:

Exactly this one, not a different one. I haven't tried those and I don't know how they work.

3. Click on it and add it to Chrome.

I use the new Microsoft Edge as my browser, but it's based on the same thing as Chrome and thus you can download any Chrome extensions. Once you do this, it will now be an extension on your computer. Accept any permissions it asks for.

4. Click on the extension in your browser.

It shows up as a gray book. You will then see a blank page with this folder on the top. Click on the folder to open your file explorer.

5. Click on the EPUB you want.

If you move your mouse down to the gray line at the bottom, this strip at the bottom will appear. You can change settings, look at the Table of Contents, change the font size, and more!

CONCLUSION

That's it for now! Hope you enjoy this. I'm tagging users who expressed interest in reading these books: [@wehiddendesires](#), [@deerdeardarling](#), [@baiorettoldicno](#), [@eahshipper](#). Feel free to share, reblog, or just pass the link around!
